

MUHAMMAD HUZAIFA AWAN

Senior Full Stack Developer

mhuzaifaawan7@gmail.com | huzaifaawan.com | linkedin.com/in/muhammadhuzaifaawan
Lahore, Pakistan | Available US & UK hours | Remote

PROFESSIONAL SUMMARY

Senior Full Stack Developer who takes products the whole way, from schema and API architecture through frontend performance to production monitoring. Designed and shipped a production Model Context Protocol (MCP) server giving Claude secure control of a client's live business systems across 60+ tools, and rebuilt a multi-tenant SaaS serving 100+ concurrent users into a platform holding sub-50ms API responses. Works daily with US-based product and design teams on AI integrations, payment infrastructure, and multilingual cross-platform applications.

TECHNICAL SKILLS

Backend: C#, ASP.NET Core, .NET 5/6/7/8, Entity Framework Core, RESTful APIs, WebSockets, MVC, Node.js, Express.js, Python, FastAPI

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS, Tailwind CSS, Bootstrap, XAML (WPF)

Databases: SQL Server, PostgreSQL, MySQL, SQLite, Redis, Supabase, Neon Postgres

AI Engineering: Model Context Protocol (MCP), Claude API, OpenAI API, LLM prompt engineering, structured outputs, AI image analysis, Microsoft Graph API

Payments & Auth: Stripe (subscriptions, webhooks, one-time payments), Firebase OTP, OAuth 2.0, Shippo API, Zapier webhooks

DevOps: Git, Azure DevOps, GitHub Actions, Docker, CI/CD, Fly.io, Vercel, PyInstaller, Postman

Other: Dynamic PDF generation (iTextSharp), multilingual i18n (EN/ES), PWA development, desktop apps (WPF/XAML)

PROFESSIONAL EXPERIENCE

Full Stack Developer (Subcontract)

Lotte Innovate | Los Angeles, CA (Remote) | Mar 2026 - Present

- Built custom MCP servers letting AI assistants securely read and write across internal tools, automating client workflows end to end (MCP, Anthropic API, TypeScript).
- Delivered the Virginia MLS Solutions real estate platform: nine React pages on SQL Server covering listings, search, and detail views on live data.
- Shipped the Network Change Scanner, a WPF desktop application (C#) that snapshots a live network and returns a clear go/no-go on exactly what changed.

Senior Full Stack Developer

LEO Innovate | Florida, USA (Remote) | Feb 2025 - Present

- Architected a real-time multi-tenant website builder on ASP.NET Core and React, pushing live preview to salon storefronts over WebSockets.
- Tuned SQL Server queries and introduced a Redis caching strategy, reaching a 95% cache hit rate and sub-50ms API responses under 100+ concurrent users.
- Built the analytics dashboard, TV queue display, and Firebase OTP kiosk check-in, and led the English and Spanish i18n rollout.
- Drove a 5,000+ line C# refactor, cutting tech debt 30% and reducing production incidents by 40%.

Full Stack Engineer (Freelance)

Independent / Upwork | United States (Remote) | May 2024 - Present

- Ship production SaaS, dashboards, and CRMs for B2B clients on ASP.NET Core, React, TypeScript, and PostgreSQL with AI integrations throughout.
- Rebuilt a multi-tenant salon SaaS, cutting page loads from 3 seconds to under 500ms while shipping five features and resolving 200+ tickets.
- Engineered Studio OS solo: an MCP server exposing 60+ tools across ClickUp, Outlook, Apple Health, and Oura, deployed on Fly.io with Neon Postgres.
- Logged 2,000+ hours of billed client work; several clients moved off-platform, so public ratings understate the volume.

Earlier Experience

Full Stack Web Developer, Fabco Systems at DPS Model Town (Jun 2024 - Sep 2024) | Web Development Specialist, NUML (Aug 2023 - Jun 2024) | Database Programmer, Fabco Systems at DPS Model Town (May 2023 - Jul 2023)

- Built the university's first digital Attendance Management System in C# and JavaScript.
- Shipped ASP.NET MVC features and REST APIs for school management systems.
- Designed normalised MySQL schemas with stored procedures, triggers, and indexing across admissions, academics, payroll, and inventory.

SELECTED PROJECTS

Atlas - Outlook inside Claude

Next.js | MCP | Claude API | Microsoft Graph | TypeScript

SaaS product designed, built, and launched solo. Brings Outlook mail and calendar into Claude through an MCP server: read, draft, send, and schedule in plain English across multiple work and personal accounts, with OAuth-secured multi-tenant access.

Studio OS - Custom MCP Server

FastAPI | Python | Microsoft Graph | Neon Postgres | Fly.io

Solo-engineered platform letting Claude drive a team's entire toolchain through one secure interface: 60+ tools across ClickUp, Outlook (dual M365 tenants), Apple Health, and Oura. OAuth 2.0 device-code auth, SSE to Streamable HTTP migration, and a Windows installer with AES-256-GCM credential encryption.

Apex Synchronia Intelligence

Next.js | Claude API | OpenAI | Supabase | TypeScript

AI analytics platform for affiliate-driven businesses covering portfolio overview, revenue trends, territories, and configurable metrics. Orchestrates Claude and OpenAI with structured outputs, prompt engineering, and CSV ingestion.

LEO Multilingual Salon Builder

ASP.NET Core | React | WebSockets | i18n | Multi-tenant

Real-time multi-tenant website builder powering salon storefronts. WebSocket-driven live preview pushes updates without refreshes, with six themes, custom typography, and full English and Spanish i18n.

LEO Onboarding Portal

React | ASP.NET Core | Firebase OTP | Stripe | iTextSharp

End-to-end bilingual onboarding wizard: owner info, plan and add-ons, branch setup, services, teams, migration, and payment, with Firebase OTP verification, save-and-resume, and dynamic PDF service agreement generation.

Affiliate Management System

Next.js | Supabase | Stripe | PostgreSQL | Tailwind

Direct-selling platform with tiered bundles, rank progression from Consultant to Director, referral tracking, and member dashboards. Stripe subscriptions, one-time payments, and webhook handling.

EDUCATION

B.S. in Computer Science - National University of Modern Languages (NUML), Lahore | 2026

CERTIFICATIONS

micro1 Certified Full Stack Developer - Certified via technical assessment

LANGUAGES

English (C1 Advanced) | Urdu (Native)
