

MUHAMMAD HUZAIFA AWAN

Senior Full Stack Developer | .NET, React, AI & Multi-Tenant SaaS

Lahore, Pakistan | Available for US & UK hours | Remote

mhuzaifaawan7@gmail.com | huzaifaawan.com | linkedin.com/in/muhammadhuzaifaawan | github.com/M-Huzaifa-Awan

PROFESSIONAL SUMMARY

Senior full stack developer with 6+ years of freelance, consulting, and product delivery experience across ASP.NET Core, React, TypeScript, SQL Server, PostgreSQL, and AI integrations. Owns products end to end, from schema and API design through frontend performance, deployment, and production support. Builds secure MCP tooling that connects AI assistants to internal systems and helps scale multi-tenant SaaS products to 100+ concurrent users with sub-50ms API responses and a 95% Redis cache hit rate.

CORE IMPACT

6+ years Full stack delivery	MCP tooling Secure workflow integration	2,000+ Billed client hours	<50ms API response under load
--	---	--------------------------------------	--

TECHNICAL SKILLS

Backend	C#, ASP.NET Core, .NET 5/6/7/8, Entity Framework Core, REST APIs, WebSockets, MVC, Node.js, Express.js, Python, FastAPI
Frontend	React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, SASS, Tailwind CSS, Bootstrap, XAML/WPF
Data	SQL Server, PostgreSQL, MySQL, SQLite, Redis, Supabase, Neon Postgres
AI & Integrations	MCP, Claude API, OpenAI API, LLM prompt engineering, structured outputs, Microsoft Graph API, OAuth 2.0
Cloud & Delivery	Git, GitHub Actions, Azure DevOps, Docker, CI/CD, Fly.io, Vercel, PyInstaller, Postman
Payments & Platforms	Stripe, Firebase OTP, Shippo API, Zapier webhooks, dynamic PDF generation, multilingual i18n, PWA

PROFESSIONAL EXPERIENCE

Full Stack Developer (Subcontract) Mar 2026 - Present

Lotte Innovate | Los Angeles, CA | Remote

- Built custom MCP tooling enabling AI assistants to securely read and write across internal systems, automating client workflows end to end through vendor-neutral integrations.
- Delivered the Virginia MLS Solutions platform with nine React pages backed by SQL Server, covering live listings, search, and property detail workflows.
- Shipped Network Change Scanner, a C# WPF desktop application that snapshots live networks and returns a clear go/no-go assessment of what changed.

Senior Full Stack Developer Feb 2025 - Aug 2026

LEO Innovate | Florida, USA | Remote

- Architected a real-time multi-tenant website builder in ASP.NET Core and React, pushing live storefront previews over WebSockets.
- Optimized SQL Server queries and introduced Redis caching, achieving a 95% cache hit rate and sub-50ms API responses under 100+ concurrent users.
- Built analytics, TV queue, and Firebase OTP kiosk workflows, and led full English and Spanish internationalization.
- Led a 5,000+ line C# refactor that reduced technical debt by 30% and production incidents by 40%.

Senior Full Stack Developer - Freelance & Consulting Feb 2020 - Present

Independent Consultant | Direct Clients and Upwork | Remote

- Deliver production SaaS, CRM, dashboard, and AI-enabled applications for international B2B clients using ASP.NET Core, React, TypeScript, and PostgreSQL.
- Rebuilt a multi-tenant salon SaaS, reducing page loads from 3 seconds to under 500ms while shipping five major features and resolving 200+ tickets.
- Built secure MCP tooling connecting business platforms and wellness data sources, with OAuth 2.0 authentication, encrypted credentials, and cloud deployment.
- Completed 2,000+ billed hours across international engagements, including long-term client relationships that continued through direct contracts.

Fabco Systems at DPS Model Town | NUML

- Built NUML's first digital Attendance Management System using C# and JavaScript.
- Shipped ASP.NET MVC features and REST APIs for school management systems.
- Designed normalized MySQL schemas with stored procedures, triggers, and indexing across admissions, academics, payroll, and inventory.

SELECTED PROJECTS

Custom MCP Tooling | FastAPI | Python | Microsoft Graph | OAuth 2.0 | Fly.io

Built a secure MCP integration platform enabling AI assistants to work across business and wellness systems. Implemented OAuth 2.0 device-code authentication, multi-account Microsoft Graph access, an SSE-to-Streamable HTTP migration, and a Windows installer with AES-256-GCM credential encryption.

Atlas - AI Outlook Assistant | Next.js | MCP | AI Integration | Microsoft Graph | TypeScript

Designed, built, and launched a multi-tenant SaaS that connects Outlook email and calendar to an AI assistant for natural-language reading, drafting, sending, and scheduling across multiple work and personal accounts.

Apex Synchronia Intelligence | Next.js | Claude API | OpenAI | Supabase | TypeScript

Built an AI analytics platform for affiliate-driven businesses with portfolio views, revenue trends, territory reporting, configurable metrics, structured outputs, prompt orchestration, and CSV ingestion.

LEO Multilingual Salon Builder | ASP.NET Core | React | WebSockets | i18n | Multi-Tenant

Built a real-time website builder for salon storefronts with WebSocket-driven live preview, six themes, custom typography, and complete English and Spanish localization.

LEO Onboarding Portal | React | ASP.NET Core | Firebase OTP | Stripe | iTextSharp

Delivered a bilingual onboarding wizard covering plan selection, branches, services, teams, migration, payments, OTP verification, save-and-resume, and dynamic PDF agreement generation.

Affiliate Management System | Next.js | Supabase | Stripe | PostgreSQL | Tailwind

Developed a direct-selling platform with tiered bundles, rank progression, referral tracking, member dashboards, Stripe subscriptions, one-time payments, and webhook processing.

EDUCATION & CERTIFICATION

B.S. in Computer Science	National University of Modern Languages (NUML), Lahore 2026
micro1 Certified Full Stack Developer	Technical assessment-based certification

LANGUAGES

English (C1 Advanced) | Urdu (Native)
